Surgical Options:

- Yes / No (Circle One) Are you interested in Heartworm/Lyme/Ehrlichia/Anaplasma or Heartworm or Heartworm/Lyme/Ehrlichia testing your dog today?
- Yes / No (Circle One) We are concerned about your dog's upcoming anesthesia and surgery, therefore, we encourage you to have a pre surgical blood screen done for your dog before anesthesia. This screen checks for anemia, as well as liver and kidney function. Animals could be suffering from these problems without showing any outward signs. If there are any abnormalities, we will call you immediately.
- Yes / No (Circle One) After surgery pets experience pain. We would like your permission to administer an injectable pain medication, at an additional cost, to alleviate discomfort and help your pet rest more comfortably for about 24 hours, if it becomes necessary.
- Yes / No (Circle One) We would like your permission to send home medication to continue to control any pain your dog may have at home. There will be an additional cost. Are you interested in having medication for at home?

Surgical & Anesthesia Consent

I hereby authorize the Shippensburg Animal Hospital PC to perform the above procedure(s) and to administer anesthesia to my pet(s). I am aware there are risks involved and, in rare cases, complications may occur which will be treated in a prompt and aggressive manner. I also realize that no guarantee, nor warranty, can ethically or professionally be made regarding the results or cure.

I understand that I assume financial responsibility for all services rendered and that payment is due at the time of discharge.
